

Cockpit Door Hold Open Latch

DHC-8 400

Benefits

- Easy-to-use latch for securing cockpit door in the open position
- Simple, unobtrusive installation

The FIELD AVIATION designed Cockpit Door Hold Open Latch STC kit provides a method for holding the cockpit door open during maintenance or ground operations (regulations permitting).

The spring-loaded latch is installed on the forward LH entrance compartment door.

Kit Content

- Latch
- Mounting plate and spacer
- Installation data package
- Certification documentation

Kit Price and Delivery

Kit price is US \$2,700 per aircraft . Fleet volume discounts may apply. Typical lead time is approximately 2 weeks ARO.
