

EMPOWERING YOUR MISSION

Established in 1947, Field Aerospace has grown to be a center of excellence for aircraft engineering, integration and modifications. With the ability to design, install, test, and certify all our modifications, Field's upgrades and solutions keep your aircraft in the air, on mission, and ready for the future.

Our US-owned company has locations across North America, including a 150,000 sq.ft. hangar with 425,000 sq.ft. of ramp space at Will Rogers Airport in Oklahoma City.

Past Performance

We have extensive experience with various aircraft types, from commercial to military. 40% of our staff is comprised of U.S. military veterans who have a wide variety of expertise on various other aircraft.
